ANTONIANI

ANTONIANI

EXCLUSIVE BAGS FOR FREE SOULS

Giada Pavone CEO founder of Antoniani's brand, was born and grew up in the tailor's atelier of her Bolognese grandmother Fernanda Antoniani, to whom she dedicated the name of her brand and where she began to animate the stylistic track of her bag creations.

An unique style with charm

The Antoniani bag is not a simple accessory, but an accent to be placed as a lifestyle and are chosen by those women who have a free spirit and love to dare, standing out for an exclusive elegance that makes them unique for their charm.

Antoniani creates exclusively unique pieces, giving priority to colors and choosing models with clean lines, with harmonious contrasts in the cuts and colors, selecting fabrics and leathers of the highest quality, mixing, as the designer likes to define, the material. A "must" of the brand are the models "B SIDE" and "L'ANTONIANI" that tell her inspiration for the style of the '70s and '80s, obviously dragging in the stylistic choices also the music scene of these years, with groups such as Roxy Music or Japan. wThe unmistakable glam of those years give her inspiration, having Jerry Hall or Pat Cleveland as muses, crossing and mixing in her total artistic inspiration fashion and music of this period.
